DETAILED ACTION

Examiner's Amendment

[01] An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

[02] The application has been amended as follows:

Claim 3, currently withdrawn, is rejoined.

[03] Since all claims previously withdrawn from consideration under 37 CFR 1.142 have been rejoined, the restriction requirement made in the Office action mailed on 6/22/2005 is hereby withdrawn.

Reasons for Allowance

[04] Claims 1-15 are allowed. The following is an examiner's statement of reasons for allowance.

[05] Applicant correctly argues that "neither the Deng nor Abe reference discloses a peak-luminance determiner that compares the plurality of average block-luminance-levels ... with each other to determine the peak luminance level."

[06] Deng discloses (1) the calculation of an average block luminance level; (2) the

calculation of a peak block luminance level; (3) the combination of these methods as anticipated by one of ordinary skill in the art. Therein, a 'block' is a localized region of pixels within a subject image, and a subject image is constituted by a plurality of blocks. No combination of Deng's average block luminance level (the average of the calculated pixel luminance levels for all the pixels in a single block) and Deng's peak block luminance level (the greatest luminance level of all the pixels in a single block) results in the claimed invention. Applicant clearly invokes a "peak luminance level" which is defined as the greatest average block luminance level *among the several blocks*, which differentiates from the greatest luminance level *among the constituent pixels in a single block* taught by Deng. This clearly defines it over the Prior Art of record.

- [07] Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
